**Subject:** Microsoft settlement

I think its time we moved on the settlement identified by the Justice department is more than fair for the Federal Government and the States. I resent a few states holding large companies hostage because of their own interests and at the expense of the remaing States and American people. Its your responsibility to see that a minority group does not gain advantage at the expense of the majority. Make them settle or walk away with what they really deserve nothing

Have a great day P Duchene
